Answer: (c) I and III only

$\mathbf{Q}_{\mathbf{A}}$ **Explanation**:

- Ordinance-making power (Art. 123/213) gives the President/Governor the same legislative competence as Parliament/State legislature with respect to ordinary laws. Hence an Ordinance can amend or repeal a Central Act just like an ordinary Bill → Statement I √
- However, an Ordinance cannot violate or abridge Fundamental Rights; any such provision would be ultra-vires the Constitution (SC: *RC Cooper, Minerva Mills*) →

Q explanation:

- Arunachal Pradesh ✓ The capital *Itanagar* is named after the 15-century Ita Fort; the State indeed hosts Namdapha & Mouling National Parks.
- Nagaland X Carved out through the State of Nagaland Act, 1962 (ordinary statute under Art. 3), *not* by a Constitutional Amendment.
- Tripura ✓ Started as a Part-C State; became a Union Territory in 1956 (States Reorganisation Act) and a full State on 21 Jan 1972 (North-Eastern Areas Reorganisation Act).

 State of Nagaland Act, 1962
 Formed the new State of Nagaland (16th state) by taking out the Naga Hills – Tuensang Area from the State of Assam. The Naga Hills – Tuensang Area was a tribal area of Assam specified in the Sixth Schedule of the Constitution.

- III. Zonal Councils

How many of the above were established as per the provisions of the Constitution of India? (a) Only one (b) Only two (c) All the three (d) None

🗹 Answer: (a) Only one

$\mathbf{Q} \mathbf{A} \mathbf{Q}$ Explanation:

- Inter-State Council is specifically provided for in Article 263 of the Constitution (though set up in 1990).
- Zonal Councils derive from Part-III of the States Re-organisation Act, 1956, not the Constitution.

I. The Constitution of India explicitly mentions that in certain spheres the Governor of a State acts in his/her own discretion.

II. The President of India can, of his/her own, reserve a Bill passed by a State Legislature for his/her consideration without it being forwarded by the Governor of the State concerned.

Which of the statements given above is/are correct? (a) I only (b) II only (c) Both I and II (d) Neither I nor II

🗹 Answer: (a) I only

$\mathbf{Q}_{\mathbf{A}}$ **Explanation**:

- Statement I ✓ Articles 163(1) (proviso), 371, 371A–H, Fifth & Sixth Schedules expressly give the Governor *discretion* in specified matters.
- Statement II × Under Article 200, a Bill can reach the President only through the Governor's reservation; the President cannot unilaterally pull up a State Bill.

Question 46

Consider the following statements :

I. With reference to the Constitution of India, if an area in a State is declared as a Scheduled Area under the Fifth Schedule, the State Government loses its executive power in such areas and a local body assumes total administration.

II. The Union Government can take over the total administration of such areas under certain circumstances on the recommendations of the Governor.

Which of the statements given above is/are correct? (a) I only (b) II only (c) Both I and II (d) Neither I nor II

Answer: (d) Neither I nor II

@≟@ Explanation:

- State executive power retained: Para 2 of the Fifth Schedule stipulates that the executive power of the State extends to Scheduled Areas; the Governor may make regulations, but the State does **not** lose its competence, nor is a "local body" vested with total control.
- No Union take-over clause: The Fifth Schedule contains no provision allowing the Union Government to "take over" direct administration of Scheduled Areas. Centre may issue welfare directions (Art. 339) but not assume day-to-day control.

UPSC Prelims Solution-2025

UPSCTREE

Qie Explanation:

Under the **second proviso to Article 368(2)**, State-ratification is needed when an amendment seeks to alter:

- any of the Lists in the Seventh Schedule (covers Subject I);
- Article 162 (extent of a State's executive power—Subject II);
- certain specified provisions such as Articles 54, 55, 73, 241, Chapter V of Part VI, or any of the Lists. Article 158 (Governor's conditions of office—Subject III) is not on this list.

Hence only Subjects I and II demand ratification.

🗹 Question 49

With reference to the Indian polity, consider the following statements :

I. The Governor of a State is not answerable to any court for the exercise and performance of the powers and duties of his/her office.

II. No criminal proceedings shall be instituted or continued against the Governor during his/her term of office.

III. Members of a State Legislature are not liable to any proceedings in any court in respect of anything said within the House.

Which of the statements given above are correct?

(a) I and II only (b) II and III only (c) I and III only (d) I, II and III

Answer: (d) I, II and III

♀▲♀ Explanation:

- Articles 361(1) & 361(2) confer complete judicial immunity on a sitting Governor: not answerable to courts (Stmt I) and immune from criminal proceedings (Stmt II).
- Article 194(2) grants legislators absolute privilege for anything said or voted in the House, shielding them from court action (**Stmt III**).

- II. Refining, storage and distribution of petroleum
- III. Marketing and sale of petroleum products
- IV. Production of natural gas

How many of the above activities are regulated by the Petroleum and Natural Gas Regulatory Board (PNGRB) in our country?

(a) Only one (b) Only two (c) Only three (d) All the four

Answer: (b) Only two

Qie Explanation:

The **PNGRB Act 2006** covers **down-stream** petroleum and natural-gas operations—namely (II) **refining/storage/distribution** and (III) **marketing/sale of petroleum products**—plus city-gas networks and common carriers.

• Up-stream **production of crude oil (I)** and **production of natural gas (IV)** remain under the Ministry of Petroleum & Natural Gas / Directorate General of Hydrocarbons.

Thus, exactly **two** of the listed activities fall under PNGRB regulation.

All types of UAVs can use battery only as a source of power supply. How many of the statements given above are correct? (a) Only one (b) Only two (c) All the three (d) None Answer: (d) None ♥▲♥ Explanation: • Fixed-wing UAVs (e.g., large surveillance drones) require runways and **cannot perform** vertical take-off/landing or hover. • Many UAV classes (medium-altitude, long-endurance; loitering munitions) run on piston/jet liquid-fuel engines, not batteries. Hence every statement is incorrect. **Question 53** Q. In the context of electric-vehicle batteries, consider the following elements: I. Cobalt II. Graphite III. Lithium IV. Nickel How many of the above usually make up battery cathodes? - I. Cigarette butts
- II. Eyeglass lenses
- III. Car tyres

How many of them contain plastic?

(a) Only one (b) Only two (c) All the three (d) None

Answer: (c) All the three

🌳 📥 🌳 Explanation:

- Cigarette filters are mostly cellulose-acetate plastic micro-fibres.
- Modern eyewear lenses are moulded from **polycarbonate or CR-39 plastics**.
- Car tyres use a blend of natural rubber and **synthetic rubber polymers (styrene-butadiene, etc.)**, a form of plastic.

- III. Urea

Coal-gasification technology can be used in the production of how many of them? (a) Only one (b) Only two (c) All the three (d) None

- (b) These are explosives in military weapons
- (c) These are high-energy fuels for cruise missiles
- (d) These are fuels for rocket propulsion

Answer: (b) These are explosives in military weapons

Qie Explanation:

CL-20 (hexanitrohexaazaisowurtzitane), HMX (cyclotetramethylene-tetranitramine) and LLM-105 (1-oxy-2,2-dinitro-2-azapropane-3-nitro-1,2,4-triazole) are **advanced high-energy nitramine explosives** researched for insensitive munitions, warheads and solid propellant additives in modern military ordnance.

- **Statement I** highlights the usefulness of activated carbon in pollution control.
- ✓ Statement II ✓ Activated carbon's high porosity/surface area (often >1000 m² g⁻¹) underpins its strong adsorption of heavy-metal ions.
- Statement III ✓ It can be produced economically from carbon-rich wastes (coconut shells, biomass, tyres, agricultural husk, etc.).
 Both II (technical efficacy) and III (cost-effective availability) jointly explain why Statement I is true and attractive.

VQuestion 61

Consider the following statements :

Statement I : Studies indicate that carbon-dioxide emissions from cement industry account for more than 5 % of global carbon emissions.

Statement II : Silica-bearing clay is mixed with limestone while manufacturing cement. **Statement III** : Limestone is converted into lime during clinker production for cement manufacturing.

Which one of the following is correct in respect of the above statements?

(a) Both Statement II and Statement III are correct and both of them explain Statement I

(b) Both Statement II and Statement III are correct but only one of them explains Statement I

(c) Only one of the Statements II and III is correct and that explains Statement I

(d) Neither Statement II nor Statement III is correct

Answer: (b) Both Statement II and Statement III are correct but only one of them explains Statement I

Q¹ **Explanation**:

- Statement I is true—cement manufacture contributes ~7 % of global CO₂.
- *Statement II* is true—the raw-mix uses limestone **plus** silica-rich clay.
- ♦ Statement III is true—calcination turns CaCO₃ → CaO + CO₂, the main source of emissions.

Statement II : The COP 28 declaration on Climate and Health is a binding declaration; if signed, it becomes mandatory to decarbonize the health sector.

Statement III : If India's health sector is decarbonized, the resilience of its health-care system may be compromised.

Which one of the following is correct in respect of the above statements?

- (a) Both Statement II and Statement III are correct and both of them explain Statement I
- (b) Both Statement II and Statement III are correct but only one of them explains Statement I
- (c) Only one of the Statements II and III is correct and that explains Statement I
- (d) Neither Statement II nor Statement III is correct

Answer: (d) Neither Statement II nor Statement III is correct

$\mathbf{Q}_{\mathbf{A}}$ Explanation:

- Statement I India indeed did **not** sign the COP 28 Climate & Health declaration.
- X Statement II The declaration is **voluntary**, not legally binding.
- X Statement III Decarbonizing hospitals (renewables, efficiency) generally improves, not weakens, resilience.

Hence both II and III are wrong and do **not** explain I

Reference \rightarrow India on Sunday refrained from signing the COP28 Declaration on Climate and Health, with sources pointing out that curbing greenhouse gas use for cooling in the health sector, which is one of the points in the document, may not be practical or achievable within the country's healthcare infrastructure in the short term.

Consider the following statements :

Statement I : Scientific studies suggest that a shift is taking place in the Earth's rotation and axis.

Statement II : Solar flares and associated coronal mass ejections bombarded the Earth's outermost atmosphere with tremendous amount of energy.

Statement III : As the Earth's polar ice melts, the water tends to move towards the equator.

Which one of the following is correct in respect of the above statements?

(a) Both Statement II and Statement III are correct and both of them explain Statement I

(b) Both Statement II and Statement III are correct but only one of them explains Statement I

- (c) Only one of the Statements II and III is correct and that explains Statement I
- (d) Neither Statement II nor Statement III is correct

Answer: (b) Both Statement II and Statement III are correct but only one of them explains Statement I

$\mathbf{Q}_{\mathbf{A}}$ Explanation:

- Statement I Satellite data show the planetary spin axis drifting (polar motion).
- *Statement II* Intense solar flares do hit the magnetosphere, but they **do not alter Earth's mass distribution**; thus they don't explain axis drift.
- Statement III Melting polar ice redistributes mass toward lower latitudes, modifying Earth's moment of inertia and **does** explain the observed shift.

So II & III are factually true, but **only III** accounts for the change cited in Statement I.

Qie Explanation:

- Statement *I* is factual—Article 6 negotiations dominate every COP because they determine how nations can cooperate to achieve their NDCs.
- [≵] Statement II is correct—Article 6.2 & 6.4 establish the rules for **carbon-market mechanisms** and the transfer of "internationally transferred mitigation outcomes."
- Statement III is also correct—Article 6.8 provides for non-market approaches (technology co-operation, capacity-building, etc.) designed to help countries meet targets without trading credits.

Both II and III together explain why Article 6 is a hot topic (Statement I).
